DETAILED ACTION

A telephone call was made to Mr. Kevin Barner on 04/13/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 30-61 are drawn to a fiber laser system comprising a first rare-earth doped fiber and a spool around which the first fiber is wrapped, classified in class 372, subclass 6.
- II. Claims 62-75 are drawn to a laser apparatus comprising first and second short-pulse lasers and a phase-locked loop circuit, classified in class 372, subclass 25.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, Invention I discloses the function as a fiber laser system and Invention II discloses the function as a laser apparatus comprising first and second short-pulse lasers and a phase-locked loop circuit.
